

3G Mobile Broadband comes of age for business

We'd like to introduce you to the Hubb@
- a brand new 3G Access Gateway
(powered by WiBE technology)

The Hubb@ uses intelligent radio antenna technology to deliver a unique 3G broadband, VoIP and Wi-Fi service that's ideal for business of all sizes right across the UK. It doesn't require a fixed line, so no hold ups with BT or problems with being too far from the local exchange.

The revolutionary Hubb@

A 3G Access Gateway with an integrated broadband, VoIP and Wi-Fi capability that enables businesses to connect without the need for a fixed line

Over 98% UK coverage by the end of 2010

Download speeds of up to 7.2Mb and uploads of up to 5.6Mb

An ideal solution for remote locations with no access to a BT exchange, or to simply access better download speeds

Supports up to 8 simultaneous phone calls - using IP/SIP phones an *instant* telephone system is enabled
